ALONG THE PATH OF LOVE

Take a walk along The path of love and discover the architectural gems of the old town centre of Brežice through the love stories recorded in history. The path of love connects 10 sights of the old town of Brežice. The stories that a local guide tells you along the way are either true or have formed over time as part of folklore in the form of legends. Brežice, a town on the "brežec" (a small slope/breg), at the confluence of the Sava and the Krka, acquired town rights as early as 1353. Time has recorded many love stories, which are hidden behind the walls of the buildings of the old town centre.

Discover them with a local tourist guide along The path of love. Duration of the guided tour: 90 min.

<u>Price list for groups:</u>	Up to 10 people: 70,00 €
	11-30 people: 80,00 €
	31-50 people: 90,00 €

CASTLE / MUSEUM BREŽICE

Since 1949, the Posavje Museum Brežice has been housed in the Brežice Castle, Brežice's grandest building, built in the mid-16th century. The Posavje Museum Brežice presents the history and heritage of the Posavje region from prehistoric times to the present day. The regional way of life is presented through various contemporary exhibitions and numerous programmes, and the exhibited objects tell stories about the local people, work, feast days, art, wartime and times of peace. The Brežice Castle is also a popular venue for weddings, which are held in one of the most beautiful Baroque halls.

BREŽICE WATER TOWER

Owing to its height, eye-catching appearance and solid build, the water tower – Brežice's symbol and best-known landmark – entices people to come to the town from afar, wowing locals and visitors alike. Built in 1914 to serve the town's water supply, the water tower eventually started losing its original function due to new and more modern sources of drinking water, and was disconnected from the water supply network in 1983. The water tower tells the stories of technical advances, love and the integration of nature and culture. Two top two floors feature two viewpoints with 360-degree views of Brežice and the surrounding area.
